JULY 1, 1976.

To the heads of executive departments and establishments.

Subject: Uniform administrative requirements for grants and other agreements with institutions of higher education, hospitals, and other nonprofit

organizations

- 1. Purpose.—This Circular promulgates standards for obtaining consistency and uniformity among Federal agencies in the administration of grants to, and other agreements with, public and private institutions of higher education, public and private hospitals, and other quasi-public and private nonprofit organizations. This Circular does not apply to grants, contracts, or other agreements between the Federal Government and units of State or local governments covered by Federal Management Circular 74–7.
- 2. Effective date.—The standards in the attachments to this Circular will be applied as soon as practicable but not later than January 1, 1977.
- 3. Supersession.—This Circular rescinds and replaces parts III and IV of the Appendix to Federal Management Circular 73-7, Administration of college and university research grants.
- 4. Policy intent.—The uniform standards and requirements included in the attachments to this Circular replace the varying and often conflicting requirements that have been imposed by Federal agencies as conditions of grants and other agreements with recipients.
- 5. Applicability and scope.—Except as provided below, the standards promulgated by this Circular are applicable to all Federal agencies. If any statue expressly prescribes policies or specific requirements that differ from the standards provided herein, the provisions of the statute shall govern.

The provisions of the attachments of this Circular shall be applied to subrecipients performing substantive work under grants that are passed through or awarded by the primary recipient if such subrecipients are organizations described in paragraph 1.

Public and private institutions of higher education; public and private hospitals; and other quasi-public and private nonprofit organizations such as (but not limited to) community action agencies, research institutes, educational associations, and health centers.

The term does not include foreign or international organizations (such as agencies of the United Nations) and Government-owned contractor operated facilities or research centers providing continued support for mission-oriented, large scale programs that are Government-owned or controlled, or are designed as federally-funded research and development centers.

7. Requests for exceptions.—The Office of Management and Budget may grant exceptions from the requirements of this Circular when exceptions are not pro-

hibited under existing laws.

However, in the interest of maximum uniformity, exceptions from the requirements of the Circular will be permitted only in unusual cases. Agencies may apply more restrictive requirements to a class of recipients when approved by the Office of Management and Budget.

 a. Why the additional standards are being imposed;

b. what corrective action is needed.

ATTACHMENT B .- CIRCULAR NO. A-110

BONDING AND INSURANCE

For those contracts or subcontracts exceeding \$100,000, the Federal agency may accept the bonding policy and requirements of the grantee provided the Federal agency has made a determination that the Government's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

3. A bid guarantee from each bidder equivalent to five percent of the bid price .-The "bld guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be re-

3. Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the Federal agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

4. The Federal sponsoring agency may require adequate fidelity bond coverage where the recipient has no coverage and the bond is needed to protect the Government's interest.

5. Where bonds are required in the situations described above, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties (31 CFR 223)

ATTACHMENT C .- CIRCULAR No. A-110

RETENTION AND CUSTODIAL REQUIREMENTS FOR RECORDS

1. This attachment sets forth record retention requirements for grants and other agreements with recipients. Federal sponsoring agencies shall not impose any record retention requirements upon recipients other than those described below.

5. Recipient organizations should be authorized by the Federal sponsoring agency, if they so desire, to substitute microfilm copies in lieu of original records.

6. The Federal sponsoring agency shall request transfer of certain records to its custody from recipient organizations when it determines that the records possess longterm retention value. However, in order to avoid duplicate record-keeping, a Federal sponsoring agency may make arrangements with receipient organizations to retain any records that are continuously needed for foint use.

7. The head of the Federal sponsoring agency and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any pertinent books, documents, papers, and records of the recipient organization and their subrecipients to make audits, examinations, ex-

or other agreement, shall be:

ATTACHMENT E .- CIRCULAR No. A-110

COST SHABING AND MATCHING

I. This attachment sets forth criteria and procedures for the allowability of cash and in-kind contributions made by recipients or subrecipients (as referred to in paragraph 5 of the basic circular), or third parties in satisfying cost sharing and matching requirements of Federal sponsoring agencies. This attachment also establishes criteria for the evaluation of in-kind contributions made by third parties, and supplements the guidance set forth in Federal Management Circular 73-3 with respect to cost sharing on federally-sponsored research.

2. The following definitions apply for the

purpose of this attachment:

a. Project costs.-Project costs are all allowable costs (as set forth in the applicable Federal cost principles) incurred by a recipient and the value of the in-kind contributions made by the recipient or third parties in accomplishing the objectives of the grant or other agreement during the project or program period.

b. Cost sharing and matching.—In general, cost sharing and matching represent that portion of project or program costs not borne

by the Federal Government.

c. Cash contributions.—Cash contributions represent the recipient's cash outlay, includ-ing the outlay of money contributed to the recipient by non-Federal third parties.

d. In-kind contributions.-In-kind contributions represent the value of noncash contributions provided by the recipient and non-Federal third parties. Only when au-thorized by Federal legislation, may property purchased with Federal funds be considered as the recipient's in-kind contributions. Inkind contributions may be in the form of charges for real property and non-expandable personal property, and the value of goods and services directly benefiting and specifically identifiable to the project or program.

General guidelines for computing cost sharing or matching are as follows:

a. Cost sharing or matching may consist

(1) Charges incurred by the recipient as project costs. (Not all charges require cash outlays by the recipient during the project period; examples are depreciation and use charges for buildings and equipment.)

(2) Project costs financed with cash contributed or donated to the recipient by other non-Federal public agencies and institutions, and private organizations and individuals,

(3) Project costs represented by services and real and personal property, or use there-of, donated by other non-Federal public agencies and institutions, and private organizations and individuals.

b. All contributions, both cash and inkind, shall be accepted as part of the recipient's cost sharing and matching when such contributions meet all of the following criteria:

(1) Are verifiable from the recipient's records;

(2) Are not included as contributions for any other federally-assisted program;

(3) Are necessary and reasonable for proper and efficient accomplishment of project objectives;

(4) Are types of charges that would be allowable under the applicable cost principles;

- (5) Are not paid by the Federal Government under another assistance agreement (unless the agreement is authorized by Federal law to be used for cost sharing or match-
- (6) Are provided for in the approved budget when required by the Federal agency; and (7) Conform to other provisions of this

attachment.

4. Values for recipient in-kind contributions will be established in accordance with the applicable cost principles.

5. Specific procedures for the recipients in establishing the value of in-kind contribu-

tions from non-Federal third parties are set forth below

a. Valuation of volunteer services .- Volunteer services may be furnished by professional and technical personnel, consultants, and other skilled and unskilled labor. Volunteer services may be counted as cost sharing or matching if the service is an integral and part of an approved program. necessary

(1) Rates for volunteer services .- Rates for volunteers should be consistent with those paid for similar work in the recipient's organization. In those instances in which the required skills are not found in the recipient organization, rates should be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved.

(2) Volunteers employed by other organizations.-When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (exclusive of fringe benefits and overhead costs) provided these services are in the same skill for which

the employee is normally paid.

b. Valuation of donated, expendable personal property.—Donated, expendable personal property includes such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to expendable personal property included in the cost or matching share should be reasonable and should not exceed the market value of the property at the time of the donation.

c. Valuation of donated, nonexpendable personal property, buildings, and land or

(1) The method used for charging cost sharing or matching for donated nonexpendable personal property, buildings and land may differ according to the purpose of the grant or other agreement as follows:

(a) If the purpose of the grant or other agreement is to assist the recipient in the acquisition of equipment, buildings or land, the total value of the donated property may be claimed as cost sharing or matching.

(b) If the purpose of the agreement is to support activities that require the use of equipment, buildings or land, depreciation or use charges for equipment and buildings may be made. The full value of equipment or other capital assets and fair rental charges for land may be allowed provided that the Federal agency has approved the charges.

(2) The value of donated property will be determined in accordance with the usual accounting policies of the recipient with the following qualifications:

(a) Land, and buildings.—The value of donated land and buildings may not exceed its fair market value, at the time of donation to the recipient as established by an independent appraiser (e.g., certified real property appraiser or GSA representatives) and certified by a responsible official of the recipient.

(b) Nonexpendable personal property.-The value of donated nonexpendable personal property shall not exceed the fair market value of equipment and property of the same age and condition at the time of donation.

(c) Use of space.-The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality

(d) Loaned equipment.-The value loaned equipment shall not exceed its fair rental value

6. The following requirements pertain to the recipient's supporting records for inkind contributions from non-Federal third parties.

a Volunteer services must be documented and, to the extent feasible, supported by the same methods used by the recipient for its employees.

b. The basis for determining the valuation personal services, material, equipment, buildings and land must be documented.

ATTACHMENT F .- CIRCULAR No. A-110

STANDARDS FOR FINANCIAL MANAGEMENT SYSTEMS

1. This attachment prescribes standards for financial management systems of recipients. Federal sponsoring agencies shall not impose additional standards on recipients unless specifically provided for in the applicable statutes (e.g., the Joint Funding Simplification Act, P.L. 93-510) or other attachments to this circular. However, Federal sponsoring agencies are encouraged to make suggestions and assist recipients in estbalishing or improving financial management systems when such assistance is needed or requested.

2. Recipients' financial management sys-

tems shall provide for:

a. Accurate, current and complete disclosure of the financial results of each federally sponsored project or program in accordance with the reporting requirements set forth in Attachment G to this circular. When a Federal sponsoring agency requires reporting on an accrual basis, the recipient shall not be required to establish an accrual accounting system but shall develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

b. Records that identify adequately the source and application of funds for federally sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, and income.

c. Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

d. Comparison of actual outlays with budget amounts for each grant or other agreement. Whenever appropriate or required by the Federal sponsoring agency, financial information should be related to performance and unit cost data.

e. Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the recipient, whenever funds are advanced by the Federal Government. When advances are made by a letter-of-credit method, the recipient shall make drawdowns as close as possible to the time of making disbursements.

f. Procedures for determining the reason-ableness, allowability and allocability of costs in accordance with the provisions of the applicable Federal cost principles and the terms of the grant or other agreement,

g. Accounting records that are supported by source documentation.

h. Examinations in the form of audits or internal audits. Such audits shall be made by qualified individuals who are sufficiently independent of those who authorize the expenditure of Federal funds, to produce unbiased opinions, conclusions or judgments. They shall meet the independence criteria along the lines of Chapter 3, Part 3 of the U.S. General Accounting Office publication, Standards for Audit of Governmental Organizations, Programs, Activities and Functions. These examinations are intended to ascertain the effectiveness of the financial management systems and internal procedures that have been established to meet the terms and conditions of the agreements. It is not intended that each agreement awarded to the recipient be examined. Generally, examinations should be conducted on an organization-wide basis to test the fiscal integrity of

financial transactions, as well as compliance with the terms and conditions of the Federal grants and other agreements. Such tests would include an appropriate sampling of Federal agreements. Examinations will be conducted with reasonable frequency, on a continuing basis or at scheduled intervals, usually annually, but not less frequently than every two years. The frequency of these examinations shall depend upon the nature, size and the complexity of the actviity. These examinations do not relieve Federal agencies of their audit responsibilities, but may affect the frequency and scope of such audits.

i. A systematic method to assure timely and appropriate resolution of audit findings and

recommendations.

3. Primary recipients shall require subrecipients (as defined in paragraph 5 of the basic circular) to adopt the standards in paragraph 2, above except for the requirement in subparagraph 2e, regarding the use of the letter-of-credit method and that part of subparagraph 2a, regarding reporting forms and frequencies prescribed in Attachment G to this circular.

ATTACHMENT G .- CIRCULAR No. A-110 FINANCIAL REPORTING REQUIREMENTS

1. This attachment prescribes uniform reporting procedures for recipients to: summarize expenditures made and Federal funds unexpended for each award, report the status of Federal cash advanced, request advances and reimbursement when the letter-of-credit method is not used; and promulgates standard forms incident thereto.

2. The following definitions apply for pur-

poses of this attachment:

a. Accrued expenditures.—Accrued expenditures are the charges incurred by the recipient during a given period requiring the provision of funds for: (1) goods and other tangible property received; (2) services performed by employees, contractors, subrecipients, and other payees, and (3) other amounts becoming owed under programs for which no current services or performance is required.

b. Accrued income.-Accrued income is the sum of (1) earnings during a given period from (i) services performed by the recipient; and (ii) goods and other tangible property delivered to purchasers; and (2) amounts becoming owed to the recipient for which no current services or performance is required by the recipient.

c. Federal funds authorized.—Federal funds authorized are the total amount of Federal funds obligated by the Federal Government for use by the recipient. amount may include any authorized carryover of unobligated funds from prior fiscal years when permitted by law or agency regulation.

d. In-kind contributions .- In-kind contributions are defined in Attachment E to this circular.

Obligations.—Obligations amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period that will require payment by the recipient during

the same or a future period.

f. Outlays.—Outlays or expenditures represent charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis. outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subrecipients. For reports pre-pared on an accrual basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of inkind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subrecipients and other payees and other amounts becoming owed under programs for which no current services or performance are required.

g. Program income.—Program income is defined in Attachment D of this circular. It may be reported on a cash or accrual basis, whichever is used for reporting outlays.

h. Unobligated balance.—The unobligated balance is the portion of the funds authorized by the Federal sponsoring agency that has not been obligated by the recipient and is determined by deducting the cumulative obligations from the cumulative funds authorized.

1. Unliquidated obligations.—For reports prepared on a cash basis, unliquidated obligations represent the amount of obligations incurred by the recipient that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the recipient for which an outlay has not been recorded.

 Only the following forms will be authorized for obtaining financial information from recipients.

a. Financial Status Report (Exhibit 1).

- (1) Each Federal sponsoring agency shall require recipients to use the standardized Financial Status Report to report the status of funds for all nonconstruction projects or programs. The Federal sponsoring agencies may, however, have the option of not requiring the Financial Status Report when the Request for Advance or Reimbursement (paragraph 4a) or Report of Federal Cash Transactions (paragraph 3b) is determined to provide adequate information to meet their needs, except that a final Financial Status Report shall be required at the completion of the project when the Request for Advance or Reimbursement form is used only for advances.
- (2) The Federal sponsoring agency shall prescribe whether the report shall be on a cash or accrual basis. If the Federal sponsoring agency requires accrual information and the recipient's accounting records are not normally kept on the accrual basis, the recipient shall not be required to convert its accounting system, but shall develop such accrual information through best estimates based on an analysis of the documentation on hand.
- (3) The Federal sponsoring agency shall determine the frequency of the Financial Status Report for each project or program considering the size and complexity of the particular project or program. However, the report shall not be required more frequently than quarterly or less frequently than annually except as provided in subparagraph 3a(1) above. A final report shall be required at the completion of the agreement.

(4) Federal sponsoring agencies shall require recipients to submit the Financial

Status Report (original and no more than two copies) no later than 30 days after the end of each specified reporting period for quarterly and semi-annual reports, and 90 days for annual and final reports. Extensions to reporting due dates may be granted upon request of the recipient.

b. Report of Federal Cash Transactions

- (1) When funds are advanced to recipients through letters of credit or with Treasury checks, the Federal sponsoring agencies shall require each recipient to submit a Report of Federal Cash Transactions. The Federal sponsoring agency shall use this report to monitor cash advanced to recipients and to obtain disbursement information for each agreement from the recipients.
- (2) Federal sponsoring agencies may require forecasts of Federal cash requirements in the "Remarks" section of the report.
- (3) When practical and deemed necessary, the Federal sponsoring agencies may require receipts to report in the "Remarks" section the amount of cash advances in excess of three days' requirements in the hands of sub-recipients and to provide short narrative explanations of actions taken by the recipients to reduce the excess balances.
- (4) Recipients shall be required to submit not more than the original and two copies of the Report of Federal Cash Transactions 15 working days following the end of each quarter. The Federal sponsoring agencies may require a monthly report from those recipients receiving advances totaling \$1 million or more per year.
- (5) Federal sponsoring agencies may waive the requirement for submission of the Report of Federal Cash Transactions when monthly advances do not exceed \$10,000 per recipient, provided that such advances are monitored through other forms contained in this attachment, or if, in the Federal sponsoring agency's opinion, the recipient's accounting controls are adequate to minimize excessive Federal advances.
- Except as noted below, only the following forms will be authorized for the recipients in requesting advances and reimbursements.
- a. Request for Advance or Reimbursement (Exhibit 3).
- (1) Each Federal sponsoring agency shall adopt the Request for Advance or Reimbursement as a standardized form for all nonconstruction programs when letters-of-credit or predetermined advance methods are not used. Federal sponsoring agencies, however, have the option of using this form for construction programs in lieu of the Outlay Report and Request for Reimbursement for Construction Programs (subparagraph 4b).
- (2) Recipients shall be authorized to submit requests for advances and reimbursements at least monthly when letters-of-credit are not used. Federal sponsoring agencies shall not require the submission of more than the original and two copies of the Request for Advance or Reimbursement.

- b. Outlay report and request for reimbursement for construction programs (Exhibit 4).
- (1) Each Federal sponsoring agency shall adopt the Outlay Report and Request for Reimbursement for Construction Programs as the standardized format to be used for requesting reimbursement for construction programs. The Federal sponsoring agencies may, however, have the option of substituting the Request for Advance or Reimbursement Form (subparagraph 4a) when the Federal agencies determine that it provides adequate information to meet their needs.
- adequate information to meet their needs.

 (2) Recipients shall be authorized to submit requests for reimbursement at least monthly when letters-of-credit are not used. Federal sponsoring agencies shall not require more than the original and two copies of the Outlay Report and Request for Reimbursement for Construction Programs.
- 5. When the Federal sponsoring agencies need additional information in using these forms or more frequent reports, the following shall be observed:
- a. When additional information is needed to comply with legislative requirements, Federal sponsoring agencies shall issue instructions to require recipients to submit such information under the "Remarks" section of the reports.
- b. When necessary to meet specific program needs Federal sponsoring agencies shall submit the proposed reporting requirements to the Financial Management Branch, Budget Review Division, Office of Management and Budget for approval prior to submission of the reports for clearance under the provisions of OMB Circular No. A-40.
- c. When a Federal sponsoring agency has determined that a recipient's accounting system does not meet the Standards for Financial Management contained in Attachment F to this circular, additional pertinent information to further monitor grants and other agreements may be obtained upon written notice to the recipient until such time as the system is brought up to standard.
- d. The Federal sponsoring agency, in obtaining information as in paragraphs a, b and c above, must comply with report clearance requirements of the Office of Management and Budget Circular No. A-40, as revised.
- Federal sponsoring agencies have the option of shading out any line item on any report that is unnecessary for decision-making purposes.
- 7. Federal sponsoring agencies should accept the identical information from the recipients in machine usable format or computer printouts in lieu of prescribed formats.
- Federal sponsoring agencies may provide computer outputs to recipients when it will expedite or contribute to the accuracy of reporting.
- Federal sponsoring agencies are authorized to reproduce these forms. The forms for reproduction purposes can be obtained from the Office of Management and Budget.

3. Recipients shall submit a performance report (technical report) for each agreement that briefly presents the following information for each program, function, or activity involved as prescribed by the Federal spon-

soring agency:

- s. A comparison of actual accomplishments with the goals established for the period, the findings of the investigator, or both. If the output of programs or projects can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.
- b. Reasons why established goals were not

c. Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

- 4. Except as provided in a and b below, and in subparagraph 3a(1), Attachment G, recipients shall submit the performance or technical reports to Federal sponsoring agencles and the Financial Status Reports covering the same period in the frequency established by Attachment G of this Circular and, where appropriate, a final technical or performance report after completion of project on a date specified by the Federal sponsoring agency. The Federal sponsoring agency shall prescribe the frequency with which the performance reports will be submitted with the request for advance or reimbursement when that form is used in lieu of the Financial Status Report. Except as provided for in paragraph 5 below, performance reports shall not be required more frequently than quarterly or less frequently than an-nually. Federal sponsoring agencies may waive the requirement for recipients to submit performance reports with the financial reports under the following circumstances:
- a. When the recipient is required to submit a performance report with a continuation or renewal application.
- b. When the Federal sponsoring agency determines that on-site technical inspections and certified completion data will be sufficient to evaluate construction projects.
- c. When the Federal sponsoring agency requests annual financial reports on a fiscal year basis but it is necessary to get annual progress reports on a calendar year basis.
- 5. Between the required performance reporting dates, events may occur that have significant impact upon the project or program. In such instances, the recipient shall inform the Federal sponsoring agency as soon as the following types of conditions become known:
- a. Problems, delays, or adverse conditions that will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Federal assistance needed to resolve the situation.
- Favorable developments or events that enable time schedules to be met sooner than

anticipated or more work units to be produced than originally projected.

6. If any performance review conducted by the recipient discloses the need for change in the budget estimates in accordance with the criteria established in Attachment J to this Circular, the recipient shall submit a request for budget revision.

7. The Federal sponsoring agency shall make site visits as frequently as practicable

to:

a. Review program accomplishments and management control systems, and

b. Provide such technical assistance as

may be required.

8. Federal sponsoring agencies shall submit proposed technical and performance reports to the Office of Management and Budget for approval in accordance with the report clearance requirements of OMB Circular No. A-40 as revised.

ATTACHMENT I.—CIRCULAR No. A-110

PAYMENT REQUIREMENTS

1. This attachment establishes the required methods of making payments to recipients. These methods will minimize the time elapsing between the disbursement by these recipients and the transfer of funds from the United States Treasury to these recipients whether such disbursement occurs prior to or subsequent to the transfer of funds.

 Payments can be made to recipients through a letter-of-credit, an advance by Treasury check, or a reimbursement by Treassury check. The following definitions apply

for the purpose of this attachment:

a. Letter-of-Credit.—A letter-of-credit is an instrument certified by an authorized official of a Federal sponsoring agency that authorizes a recipient to draw funds when needed from the Treasury, through a Federal Reserve bank and the recipient's commercial bank, in accordance with the provisions of Treasury Circular No. 1075, as revised.

b. Advance by Treasury check.—An advance by Treasury check is a payment made by a Treasury check to a recipient upon its request before outlays are made by the recipient, or through the use of predetermined payment schedules.

c. Reimbursement by Treasury check.—A reimbursement by Treasury check is a Treasury check paid to a recipient upon request for reimbursement from the recipient.

- 3. Except for construction grants and other construction agreements for which optional payment methods are authorized, as described in paragraph 5, the letter-of-credit method shall be used by Federal sponsoring agencies if all of the following conditions exist:
- a. If there is or will be a continuing relationship between a recipient and a Federal sponsoring agency for at least a 12-month period and the total amount of advance payments expected to be received within that period from the Federal sponsoring agency is \$250,000 or more, as prescribed by Treasury Circular No. 1075. For joint funded projects the Treasury has authorized a dollar criteria of \$120,000.
- b. If the recipient has established or demonstrated to the Federal sponsoring agency the willingness and ability to maintain procedures that will minimize the time elapsing between the transfer of funds and their disbursement by the recipient.
- c. If the recipient's financial management system meets the standards for fund control and accountability prescribed in Attachment F to this Circular, "Standards for Financial Management Systems."
- 4. The method of advancing funds by Treasury check shall be used, in accordance with the provisions of Treasury Circular No.

1075, when the recipient meets all of the requirements specified in paragraph 3, above, except those in subparagraph 3a.

5. The reimbursement by Treasury check method shall be the preferred method if the recipient does not meet the requirements specified in subparagraphs 3b and 3c, above. At the option of the Federal sponsoring agency, this method may also be used on any construction agreement, or if the major portion of the program is accomplished through private market financing or Federal loans, and the Federal assistance constitutes a minor portion of the program. When the reimbursement method is used, the Federal sponsoring agency shall make payment within thirty days after receipt of the billing, unless the billing is improper.

6. When the letter-of-credit procedure is used, the recipient shall be issued one consolidated letter-of-credit whenever possible to cover anticipated cash needs for all grants and other agreements awarded by the sponsoring agency. Likewise, to the extent possible, when the advance by Treasury check method is used, advances should be consolidated (pooled) for all grants and other agreements made by the sponsoring agency

to that recipient.

7. Unless otherwise required by law, Federal sponsoring agencies shall not withhold payments for proper charges made by recipients at any time during the project or program period unless (a) a recipient has failed to comply with the program objectives, award conditions, or Federal reporting requirements; or (b) the recipient is indebted to the United States, and collection of the indebtedness will not impair accomplishment of the objectives of a project or program sponsored by the United States.

Under such conditions, the sponsoring agency may, upon reasonable notice, inform the recipient that payments will not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is

liquidated.

ATTACHMENT J .- CIRCULAR No. A-110

REVISION OF FINANCIAL PLANS

- 1. This attachment sets forth criteria and procedures to be followed by Federal sponsoring agencies in requiring recipients to report deviations from financial plans and to request approvals for financial plan revisions.
- 2. The financial plan is the financial expression of the project or program as approved during the application and/or award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon sponsoring agency requirements. It should be related to performance for program evaluation purposes whenever appropriate and required by the Federal sponsoring agency.

3. For nonconstruction awards, recipients shall immediately request approvals from Federal sponsoring agencies when there is reason to believe that within the next seven days a revision will be necessary for the

following reasons:

a. Changes in the scope or the objective of the project or program.

b. The need for additional Federal fund-

c. The transfer of amounts budgeted for indirect costs to absorb increases indirect costs or vice versa, if approval is required by the Federal sponsoring agency.

d. The expenditures as require approval in accordance with FMC 73-8, "Cost Principles for Educational Institutions." For all other awards, approval requirements for other items of expenditures may be imposed if they are consistent with those in FMC 73-8. No other requirements for specific items may be

imposed unless a deviation has been approved by the Office of Management and Budget

e. Recipients plan to transfer funds allotted for training allowances (direct payments to trainees) to other categories of expense.

4. None of the substantive programmatic work under a grant or other agreement may be subcontracted or transferred without prior approval of the Federal sponsoring agency. This provision does not apply to the purchase of supplies, material, equipment, or general support services.

5. The Federal sponsoring agency may also, at its option, restrict transfers of funds among direct cost categories for awards in which the Federal share exceeds \$100,000 when the cumulative amount of such transfers exceeds or is expected to exceed five percent of the total budget as last approved by the sponsoring agency. The same criteria shall apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for an award, except that the Federal sponsoring agency shall permit no transfer that would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended,

6. All other changes to nonconstruction budgets, except for the changes described in paragraph 8, below, do not require ap-proval. This includes the use of recipient funds in furtherance of program objectives over and above the recipient minimum share included in the approved budget.

7. For construction awards, recipients shall request prior approvals promptly from Federal sponsoring agencies for budget revisions wherever:

a. The revision results from changes in the scope or the objective of the project or program, and

b. The revision increases the budget amounts of Federal funds needed to complete the project.

When a Federal sponsoring makes an award that provides support for both construction and nonconstruction work. the Federal sponsoring agency may require the recipient to request prior approval from the Federal sponsoring agency before making any fund or budget transfers between the two types of work supported.

9. For both construction and nonconstruction awards, Federal sponsoring agencies shall require recipients to notify the Federal sponsoring agency promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient by more than \$5,000 or five percent of the Federal award, whichever is greater. This notification will not be required if applications for additional funding are submitted for continuing grants or contracts.

10. When requesting approval for budget revisions, recipients shall use the budget forms that were used in the application unless a letter request will suffice.

11. Within 30 calendar days from the date of receipt of the request for budget revisions, Federal sponsoring agencies shall review the request and notify the recipient whether the budget revisions have been approved. If the revision is still under consideration at the end of 30 calendar days, the Federal sponsoring agency shall inform the recipient in writing of the date when the recipient may expect the decision.

ATTACHMENT K .- CIRCULAR No. A-110

CLOSEOUT PROCEDURES

1. This attachment prescribes uniform closeout procedures for Federal grants and other agreements with recipients.

2. The following definitions shall apply for

the purpose of this attachment:

a. Closeout.-The closeout of a grant agreement is the process by which a Federal sponsoring agency determines that all applicable administrative actions and all required work of the agreement have been completed by the recipient and the Federal sponsoring agency.

b. Date of completion .- The date of completion is the date on which all work under grants and other agreements is completed or the date on the award document, or any supplement or amendment thereto, on which Federal sponsorship ends.

c. Disallowed costs.-Disallowed costs are those charges to a grant or other agreement that the Federal sponsoring agency or its representative determines to be unallowable, in accordance with the applicable Federal cost principles or other conditions contained in the agreements.

All Federal sponsoring agencies shall establish closeout procedures that include the following requirements:

a. Upon request, the Federal sponsoring agency shall make prompt payments to a recipient for allowable reimbursable costs under the grant or other agreement being closed out.

b. The recipient shall immediately refund any balance of unobligated (unencumbered) cash that the Federal sponsoring agency has advanced or paid and that is not authorized to be retained by the recipient for use in other grants or other agreements.

c. The Federal sponsoring agency shall obtain from the recipient within 90 calendar days after the date of completion of the agreement all financial, performance, and other reports required as the condition of the agreement. The agency may grant extensions when requested by the recipient.

d. When authorized by the grant or other agreement, the Federal sponsoring agency shall make a settlement for any upward or downward adjustments to the Federal share of costs after these reports are received.

e. The recipient shall account for any property acquired with Federal funds, or received from the Government in accordance with the provisions of Attachment N to this Circular, Property Management Standards.

In the event a final audit has not been performed prior to the closeout of the grant or other agreement, the Federal sponsoring agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

4. Suspension and termination procedures are contained in Attachment L to this Cir-

ATTACHMENT L.-CIRCULAR NO. A-110

SUSPENSION AND TERMINATION PROCEDURES

- 1. This attachment prescribes uniform suspension and termination procedures for Federal grants and other agreements with recipients.
- 2. The following definitions shall apply for the purpose of this attachment:
- a. Termination.-The termination of grant or other agreement means the cancellation of Federal sponsorship, in whole or in part, under an agreement at any time prior to the date of completion.
- b. Suspension.—The suspension of a grant or other agreement is an action by a Federal sponsoring agency that temporarily suspends Federal sponsorship under the grant or other agreement, pending corrective action by the recipient or pending a decision to terminate the grant or other agreement by the Federal sponsoring agency.
- 3. All Federal sponsoring agencies shall provide procedures to be followed when a recipient has failed to comply with the terms

of the grant or other agreement and conditions or standards. When that occurs, the Federal sponsoring agency may, on reasonable notice to the recipient, suspend the grant or other agreement, and withhold further payments, prohibit the recipient from incurring additional obligations of funds, pending corrective action by the recipient, or a decision to termination in accordance with paragraph 4. The Federal sponsoring agency shall allow all necessary and proper costs that the recipient could not reasonably avoid during the period of suspension provided that they meet the provisions of the applicable Federal cost principles.

4. Federal sponsoring agencies shall provide for the systematic settlement of terminated grants or other agreements including the following:

a. Termination for cause.—The Federal sponsoring agency may reserve the right to terminate any grant or other agreement in whole or in part at any time before the date of completion, whenever it is determined that the recipient has failed to comply with the conditions of the agreement. The Federal sponsoring agency shall promptly notify the recipient in writing of the determination and the reasons for the termination, together with the effective date. Payments made to recipients or recoveries by the Federal sponsoring agencies under grants or other agreements terminated for cause shall be in accordance with the legal rights and liabilities of the parties.

b. Termination for convenience.-The Federal sponsoring agency or recipient may terminate grants and other agreements in whole or in part when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The recipient shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Federal sponsoring agency shall allow full credit to the recipient for the Federal share of the noncancellable obligations, properly incurred by the recipient prior to termination.

Acquisition cost of purchased nonexpendable personal property.-Acquisition cost of an Item of purchased nonexpendable personal property means the net invoice unit of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the recipient's regular accounting practices.

g Exempt property.—Exempt property means tangible personal property acquired in whole or in part with Federal funds, and title to which is vested in the recipient without further obligation to the Federal Government except as provided in subparagraph 6a below. Such unconditional vesting of title will be pursuant to any Federal legislation that provides the Federal sponsoring agency

with adequate authority.
3. Real property.—Each Federal sponsoring agency shall prescribe requirements for recipients concerning the use and disposition of real property acquired partly or wholly under grants or other agreements. Unless otherwise provided by statute, such require-ments, as a minimum, shall contain the following:

a. Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the project, as long as

it is needed.

b. The recipient shall obtain approval by the Federal sponsoring agency for the use of real property in other projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects shall be limited to those under other federally sponsored projects (i.e., grants or other agreements) or programs that have purposes consistent with those authorized for support by the Federal

sponsoring agency.

c. When the real property is no longer needed as provided in a and b above, the recipient shall request disposition instructions from the Federal sponsoring agency or its successor Federal sponsoring agency. Federal sponsoring agency shall observe the following rules in the disposition instruc-

(1) The recipient may be permitted to retain title after it compensates the Federal Government in an amount computed by applying the Federal percentage of participation in the cost of the original project to the

fair market value of the property.
(2) The recipient may be directed to sell the property under guidelines provided by the Federal sponsoring agency and pay the Federal Government an amount computed by applying the Federal percentage of participation in the cost of the original project to the proceeds from sale (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper sales procedures shall be established that provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Gov-ernment provided that in such cases the recipient shall be entitled to compensation computed by applying the recipient's percentage of participation in the cost of the program or project to the current fair market

value of the property.
4. Federaly-owned nonexpendable personal property.-Title to federally-owned property remains vested in the Federal Government. Recipients shall submit annually an inventory listing of federally-owned property in their custody to the Federal sponsoring agency. Upon completion of the agreement or when the property is no longer needed, the recipient shall report the property to the Federal sponsoring agency for further agency utilization.

If the Federal sponsoring agency has no further need for the property, it shall be declared excess and reported to the General Services Administration. Appropriate disposition instructions will be issued to the recipient after completion of the Federal

agency review.

5. Exempt property.—When statutory authority exists, (e.g., P.L. 85-934, 42 U.S.C. 1892) title to nonexpendable personal property acquired with project funds, shall be vested in the recipient upon acquisition unless it is determined that to do so is not in furtherance of the objectives of the Federal sponsoring agency. When title is vested in the recipient, the recipient shall have no other obligation or accountability to the Federal Government for its use or disposition except as provided in 6a below.

6. Other nonexpendable property.-When other nonexpendable tangible personal property is acquired by a recipient with project funds, title shall not be taken by the Federal Government but shall vest in the recipient subject to the following conditions:

a. Right to transfer title.—For items of nonexpendable personal property having a unit acquisition cost of \$1,000 or more, the Federal sponsoring agency may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(1) The property shall be appropriately identified in the grant or other agreement or otherwise made known to the recipient

in writing.

(2) The Federal sponsoring agency shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal sponsoring agency fails to issue disposition instructions within the 120 calendar day period, the recipient shall apply the standards of subparagraphs 6b and 6c as appropriate.

(3) When the Federal sponsoring agency exercises its right to take title, the personal property shall be subject to the provisions for federally-owned nonexpendable property

discussed in paragraph 4, above.

(4) When title is transferred either to the Federal Government or to a third party the provisions of subparagraph 6c(2)(b) should be followed.

b. Use of other tangible nonexpendable property for which the recipient has title.

(1) The recipient shall use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. (a) Activities, in the following order of

(b) Activities sponsored by other Federal

agencies.

(2) Shared use .- During the time that nonexempt nonexpendable personal property is held for use on the project or program for which it was acquired, the recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by the Federal agency that financed the property; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal agency. User charges should be considered if appropriate

c. Disposition of other nonexpendable property.-When the recipient no longer needs the property as provided in 6b above, the property may be used for other activiin accordance with the following stand-

The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the property. If the recipient has no need for the property and the property has further use value, the recipient shall request disposition instructions from the original sponsoring agency.

The Federal sponsoring agency shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported to the General Services Administration by the Federal agency to determine whether a requirement for the property exists in other Federal agencies. The Federal sponsoring agency shall issue instructions to the recipient no later than 120 days after the recipient's request and the following procedures shall govern:

(a) If so instructed or if disposition instructions are not issued within 120 calendar days after the recipient's request, the recipient shall sell the property and reimburse the Federal sponsoring agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the Federal share \$100 or ten percent of the proceeds, whichever is greater, for the recipient's

selling and handling expenses.

(b) If the recipient is instructed to ship the property elsewhere, the recipient shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the recipient's participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incured.

(c) If the recipient is instructed to otherwise dispose of the property, the recipient shall be reimbursed by the Federal sponsoring agency for such costs incurred in its

disposition.

The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.
- (4) A control system shall be in effect to insure adequate safeguards to prevent loss,

damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the recipient shall promptly notify the Federal sponsoring agency

in good condition.

(6) Where the recipient is authorized or required to sell the property, proper sales procedures shall be established which would provide for competition to the extent practicable and result in the highest possible return.

If there is a residual inventory of such property exceeding \$1,000 in total aggregate fair market value, upon termination or completion of the grant or other agreement, and the property is not needed for any other federally sponsored project or program, the recipient shall retain the property for use on nonfederally sponsored activities, or sell it, but must in either compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as nonexpendable personal property.

Unless there is a prior agreement between the re-cipient and the Federal sponsoring agency on disposition of such items, the Federal sponsoring agency shall determine whether protection on the invention or discovery shall be sought. The Federal sponsoring agency will also determine how the rights in the invention or discovery-including rights under any patent issued thereon-shall be allocated and administered in order to protect the public interest consistent with "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and statement of Government Patent Policy as printed in 36 F.R. 16889)

ATTACHMENT O .- CIRCULAR No. A-110

PROCUREMENT STANDARDS

1. This attachment provides standards for use by recipients in establishing procedures for the procurement of supplies, equipment, construction and other services with Federal funds. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal law and executive orders. No additional procurement standards or requirements shall be imposed by the Federal sponsoring agencies upon recipients unless specifically required by Federal statute or executive orders.

2. The standards contained in this attachment do not relieve the recipient of the contractual responsibilities arising under its contracts. The recipient is the responsible authority, without recourse to the Federal sponsoring agency regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into, in support of a grant or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State or Federal authority as may have proper jurisdiction.

3. Recipients may use their own procurement policies and procedures. However, all recipients shall adhere to the standards set

forth in paragraphs 3 and 4.

The recipient shall maintain a code or standards of conduct that shall govern the performance of its officers, employees agents engaged in the awarding and administration of contracts using Federal funds. No employee, officer or agent shall participate in the selection, award or administration of a contract in which Federal funds are used. where, to his knowledge, he or his immediate family, partners, or organization in which he or his immediate family or partner has a financial interest or with whom he is negotiating or has any arrangement concerning prospective employment. The recipients' officers, employees or agents shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors or potential contractors. Such standards shall provide for disciplinary actions to be applied for violations of such standards by the recipients' officers, employees or agents.

b. All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient should be alert to organizational conflicts of interest or noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids and/or requests for proposals should be excluded from competing for such procurements. Awards shall be made to the bidder/offeror whose bid/offer is responsive to the solicitation and is most advantageous to the recipient, price and other factors considered. Solicitations shall clearly set forth all requirements that the bidder/offeror must fulfill in order for his bid/offer to be evaluated by the recipient. Any and all bids/offers may be rejected when it is in the recipient's

interest to do so.

c. All recipients shall establish procurement procedures that provide for, at a minimum, the following procedural requirements.

(1) Proposed procurement actions shall follow a procedure to assure the avoidance of purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase, alternatives to determine which would be the most

economical, practical procurement.

(2) Solicitations for goods and services shall be based upon a clear and accurate description of the technical requirements for the material, product or service to be procured. Such a description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" descriptions may be used as a means to define the performance or other salient requirements of a procurement, and when so used the specific features of the named brand which must be met by bidders/ offerors shall be clearly specified.

(3) Positive efforts shall be made by the recipients to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts utilizing Federal

funds.

(4) The type of procuring instruments used, e.g., fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts, shall be determined by the recipient but must be appropriate for the particular procurement and for promoting the best interest of the program involved. The "cost-plus-a-percentage-of-cost" methad of contracting shall not be used.

od of contracting shall not be used.
(5) Contracts shal be made only with responsible contractors who possess the potentional ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources.

(6) All proposed sole source contracts or where only one bid or proposal is received in which the aggregate expenditure is expected to exceed \$5,000 shall be subject to prior approval at the discretion of the Fed-

eral sponsoring agency.

- (7) Some form of price or cost analysis should be made in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability and allowability.
- (8) Procurement records and files for purchases in excess of \$10,000 shall include the following:

(a) Basis for contractor selection;

(b) Justification for lack of competition when competitive bids or offers are not obtained;

(c) Basis for award cost or price

- (9) A system for contract administration shall be maintained to ensure contractor conformance with terms, conditions and specifications of the contract, and to ensure adequate and timely followup of all purchases.
- 4. The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. These provisions shall also be applied to subcontracts.
- a. Contracts in excess of \$10,000 shall contain contractual provisions or conditions that will allow for administrative, contractual or legal remedies in instances in which contractors violate or breach contract terms, and provide for such remedial actions as may be appropriate.
- b. All contracts in excess of \$10,000 shall contain suitable provisions for termination by the recipient including the manner by which termination will be effected and the basis for settlement. In addition, such contracts shall describe conditions under which

the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

- c. In all contracts for construction or facility improvement awarded for more than \$100,000, recipients shall observe the bonding requirements provided in Attachment B to this circular.

This Act provides that each contractor or subgrantee shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The recipient shall report all suspected or reported violations to the Federal sponsoring agency.
- f. When required by the Federal program legislation. all construction contracts awarded by the recipients and subrecipients of more than \$2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a-7) and as supplemented by Department of Labor regulations (29 CFR, Part 5). Under this Act contractors shall be required to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in a wage determination made by the Secretary of Labor. In addition, con-tractors shall be required to pay wages not less than once a week. The recipient shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The recipient shall report all suspected or reported violations to the Federal sponsoring agency.
- g. Where applicable, all contracts awarded by recipients in excess of \$2,000 for construction contracts and in excess of \$2,500 for other contracts that involve the employment of mechanics or laborers, shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regula-

tions (29 CFR, Part 5). Under section 103 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard workday or workweek is permissible provided that the worker is compensated at a rate of not less than 11/2 times the basic rate of pay for all hours worked in excess of 8 hours in any calendar day or 40 hours in the workweek. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous to his health and safety as determined under construction safety and health standards promulgated by the Secretary of Labor. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

h. Contracts or agreements, the principal purpose of which is to create, develop or improve products, processes or methods; or for exploration into fields that directly concern public health, safety or welfare; or contracts in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions and materials generated under the contract or agreement are subject to the regulations issued by the Federal sponsoring agency and the recipient. The contractor shall be advised as to the source of additional informa-
